PREPARATION BEFORE USING

Calf massage parts adjustment

- Calf massage parts can be adjusted, the front for the calf knead, the back of the foot knead function, as shown below.

Front: Calf knead

Back: foot knead

- When using the foot massage, press the illustration to pull the calf massage component out to about 100 degrees.

Caution

- Do not put other items in the calf massage parts during resetting to avoid handling the massage parts.
- Do not apply excessive pressure to the calf massage parts to avoid operating the parts.

PREPARATION BEFORE USING

Installation method

(It’s suggested that more than two people move chair)

Step 1:

- Unpack the cartons, take out massage chairs assembly and other parts and check all accessories with packing list.

Step 2: Other accessories

- Connecting power cable plug to relevant socket, then power on and turn on chair, then you can use it.

Caution

- Please make power cable straighten out when using chairs, in order to avoid power cable being stuck or broken.
Installation position
Safety distance for the periphery of massage chair.
- Please make sure there is adequate space for installation this product:
  Back: minimum 15cm from the wall or any other blocks;
  Front: minimum 40cm from any blocks;
- In order to prevent from signal interference, please keep at least 1m away from
  the TV, radio and other video and audio devices.

Floor protection
- Please put carpet or other pad under the massage chair, in order to avoid any
  unpredictable impression on the floor.

Surrounding environment
Keep the massage chair away from damp places (for example: bathroom) to avoid electric leakage.
Keep the massage chair away from high temperature sources (for example: stove) to avoid fire or damage to leather material.

Grounding
This massage chair belongs to Level One electrical appliance, make sure to use three-core power supply socket and to guarantee the ground wire connected to the power supply socket has obtained good ground connection to avoid electric leakage, electric shock and some other negative effect during use.

Massage chair commissioning
- Before commissioning, please make sure there is enough space around the chair. Then use the controller to recline down the chair backrest to the limit position, rise up the legrest to the highest position and stretch out to the limit length.
- Testing all functions work normally, then power off the chair, return back to original position.
  (How to select the program, please refer to Controller instruction)

Caution
- Do not put fingers or any other objects into the gap between the seat and legrest.
- When adjusting up and down angles of the backrest and legrest, please make sure there is no obstacle around the massage chair.

Before sitting in the chair
- Make sure the legrest is well installed.
- Make sure the chair is in original position, if any part is not in initial position, please power on/off again to make the whole chair go back to original position.
**PREPARATION BEFORE USING**

**Move method**
- There are moving rollers at the bottom of the chair.
- Raise the back to the highest point.
- Switch off and plug out the chair.
- Lift the front part of the chair as showed in the figure (one person raise the front part via holding moving holder, another person push the chair when holding the top of the chair), move the chair by the rollers.

```
