GENERAL SAFETY INSTRUCTIONS

When using electrical products, basic safety precautions should always be followed:

1) The product should never be left unattended when plugged in. Unplug from outlet when it is not in use and before putting on or taking off parts.

2) Do not operate under blanket or pillow. Excessive heating can occur and cause fire, electric shock, or injury to persons.

3) Close supervision is necessary when this appliance is used by, or near children, invalids, or disabled persons.

4) Use this product only for its intended use as described in this manual. Do not use attachments which are not recommended by the manufacturer.

5) Never operate this product if it is dropped, has a damaged cord or plug, or it is dropped into water. Return the product to service center for examination and repair.

6) Do not carry this product by its supply cord or use cord as a handle.

7) Keep the cord away from heated surfaces.

8) Never operate the product with the air openings blocked. Keep the air openings free of lint, hair, and the like.

9) Never drop or insert any object into any opening.

10) Do not use outdoors.

11) Do not operate where aerosol(spray) products are being used or where oxygen is administered.

12) To disconnect, switch off all controls and remove plug from outlet.

13) This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

14) If the supply cord is damaged, it must be replaced by the manufacturer.

15) Use heated surfaces carefully. It may cause serious burns. Do not use over insensitive skin areas or in the presence of poor circulation. The unattended use of heat by children or incapacitated persons may be dangerous. The appliance has a heated surface. Persons insensitive to heat must be careful when using the appliance.

16) Please don't use more than half an hour for one time.
